

Due to the storm that will be impacting the Northeast in the coming days, we would like to provide you with some important information regarding your January 28 PT exam.

If you are unable to test as scheduled on January 28 due to a problem with a Prometric testing center (power outage, weather closure, etc.), you do not have to wait until the next fixed date to test.

If your test site is closed due to weather related issues or you are unable to travel to your scheduled appointment, you will be contacted by FSBPT via email with instructions for rescheduling your appointment within the next week. Our objective is to get your examination rescheduled **as soon as possible**.

If you have additional questions, please email examregistration@fsbpt.org or call 703-739-9420.
