

HELPFUL HINTS FOR TAKING THE NPTE

REVIEW THE NPTE CANDIDATE HANDBOOK: All the information you need to know about the exam and exam administration is included in the handbook - review it carefully and thoroughly! Find the handbook at www.fsbpt.org under Exam Candidates.

KNOW THE DEADLINES: There are two: the registration deadline and the jurisdiction approval deadline. Go to www.fsbpt.org to see the complete testing schedule. Please keep in mind that your jurisdiction may have separate deadlines for application.

CHECK YOUR ID: Once you receive your Authorization to Test (ATT) letter ensure you have two forms of current and valid IDs with the same name as on your ATT letter. One ID must include a photograph and be government issued. You will not be admitted to the Prometric testing center without proper identification that matches the name on your ATT letter.

SCHEDULE EARLY: Your ATT letter indicates the eligibility date or window in which to schedule your appointment and take the exam. Schedule your appointment as soon as possible for an improved chance of securing an appointment at your preferred testing center. You may not find a testing center close to you with available appointments if you delay scheduling.

CONFIRM YOUR APPOINTMENT: Take advantage of Prometric's automated confirmation system available 24/7. Call 800-796-9857 1-2 weeks prior to your appointment to confirm your appointment date and time. If you schedule online, you will receive an email confirmation of your appointment: www.prometric.com

VERIFY DIRECTIONS: Map the location of the testing center prior to your appointment date. Research the best route taking into consideration construction and traffic. It is your responsibility to get to the testing center 30 minutes prior to your scheduled appointment.
